The PSRHS Historical Timetable was created to depict the relative location of historic sites along the famous Donner Pass Route and the original Transcontinental Railroad. This timetable spans the periods of ownership by the Central Pacific Railroad, Southern Pacific Railroad and most recently the Union Pacific Railroad. Some locations are interpretation as the different railroads over time have adjusted the mileage along the route.

The Placer Sierra Railroad Heritage Society is a Non-Profit organization chartered to preserve the history along the transportation corridor known as The Donner Pass Route.
